Upon correction of the violation(s) above, it is the responsibility of the permit applicant to contact the Sediment & Stormwater Branch inspector at 410-996-5267 for a re-inspection of the site to determine if all necessary corrective actions have occurred. The Department of Public Works shall also inspect the site as deemed necessary after issuance of a Notice of Violation until all corrective actions have been satisfactorily completed. A re-inspection fee of \$50.00 will be assessed for each and every inspection conducted to determine if violations have been satisfactorily addressed. Payment of the re-inspection fee(s) for a Notice of Violation will be required prior to issuance of the Certificate of Use and/or Occupancy.

If a stop work order is issued, it is the responsibility of the permit applicant to contact the Sediment & Stormwater Branch inspector for a re-inspection of the site to request a release of the stop work order. The site listed above must be completely in compliance with Chapter 248 of the Cecil County Code before a stop work order is released. The Department of Public Works shall also inspect the site as deemed necessary after issuance of a stop work order until the stop work order is released. A re-instatement fee of \$125.00 will be required to release a stop work order. In addition to the re-instatement fee, a re-inspection fee of \$50.00 will be assessed for each and every inspection conducted during the stop work period to determine if violations have been satisfactorily addressed. Payment of re-instatement and re-inspection fee(s) related to the issuance of a stop work order will be required prior to the release of the stop work order.

This notification is the only Notice of Violation that will be written for this permit for the nature of violation cited above. If the same nature of violation occurs under this permit at any time while the above named site is under active construction, a stop work order and/or stop work notice will be immediately issued.
