

SHARPS DISPOSAL

Cecil County Central Landfill

758 E. Old Philadelphia Rd.

Elkton, MD 21921

Monday – Saturday 7:30am – 3:30pm

.....

About 3 billion sharps end up in the trash every year in the U.S. The American Medical Association reports this as an “important public health hazard” especially to those in the fields of sanitation and solid waste management. In response to the need for proper sharps disposal, the Cecil County Department of Public Works, Solid Waste Management Division, in cooperation with the Maryland Department of the Environment, has instituted a permanent Sharps Disposal program at the Cecil County Central Landfill.

Residents can put their sharps into a thick plastic coffee can or other similar container. This allows for transfer to our 16 gallon sharps containers which optimizes space so that we may serve as many residents as possible.

All sharps are incinerated by a fully licensed biomedical waste company in accordance with all applicable laws and regulations.

Transfer Stations are not participating at this time.
