

Textile Recycling: NEW!

Cecil County is kicking off their Textile Recycling Program on Monday, November 12, 2007. Before you throw away your used clothing & textiles, donate them to a charity or bring them to the Cecil County Central Landfill for recycling. Some of the textiles are reused and some are recycled into polishing cloths and insulation. By recycling textiles in Cecil County we can possibly divert over 6,000 tons from the waste stream each year; saving landfill space and helping the environment.
