PUBLIC MEETING ANNOUNCEMENT
LUMS ROAD STREET IMPROVEMENT PROJECT

PROJECT DESCRIPTION

The Cecil County Department of Public Works Engineering and Construction Division (DPW) is currently in preliminary design for roadway and drainage improvements of Lums Road. A public informational meeting will be as follows:

Thursday, January 26, 2017 from 5:00 pm to 7:00 pm
North East Fire Company Station 4
210 South Mauldin Ave
North East, Maryland 21901

This informational meeting will acquaint the public with the project and provide citizens an opportunity to discuss the project and any concerns that they may have with DPW staff. Displays will be set up depicting the proposed project and detour route.

QUESTIONS AND ANSWERS

Why is this work necessary?

The existing roadway is currently in poor condition, limited in width, and lacks adequate drainage. The new road will provide two 12'-0" travel lanes and two 2'-0" shoulders constructed to current standards and improve the roadside drainage.

How will traffic be impacted by construction activities?

It is anticipated the road will be detoured during construction and access for properties within the construction zone will be maintained throughout the duration of construction.

When will work be completed?

DPW has obtained funding for design and is seeking approval for additional funds for property, utilities, and construction for Fiscal Year 2018 which begins July 1, 2017. Assuming the Department obtains funding approval project advertisement could be as early as the Fall of 2017 with construction beginning in the Spring of 2018.'
