ADDENDUM No. 4
August 16, 2018

REMINDER:  Bids are due to the Cecil County Purchasing Office by 1:30 p.m. on August 22, 2018.  Bid Opening will be held at the County Administration Building in the Rising Sun Room.

A.  Addendum No. 4 is issued as part of the Contract Document, to inform and/or specify changes, which take precedence over information contained in the original Contract Documents.  Unless otherwise specifically noted or specified hereinafter, or shown on drawings or schedules accompanying this Addendum, all work required by this Addendum shall conform to the applicable provisions of the Contract Documents.  It shall be the responsibility of the Respondent to include in their proposal any cost implications of this Addendum.  All Respondents are to indicate on the form of proposal submitted by them, acknowledgement of receipt and compliance with the contents of this Addendum No. 4.

B.  Any provision in any of the Contract Documents, which may be in conflict or be inconsistent with the contents of this Addendum, shall be void to the extent of such conflict or inconsistency.

C.  The following clarifications are provided based on questions received from bidders after the pre-bid information conference:

1.  The plan set shows details for sewer manholes that show “stainless steel” inside drops for the Drop Manholes however Cecil County Standard show outside drops encased in concrete.  Which detail is correct for the 5 Drop Manholes on this project?

   The drop manholes shall be installed in accordance with the attached modified versions of Cecil County Standard Details S-9 and S-10.  Detail 30 shown on Sheet No. 56 (Drawing No. D-4) shall be deleted.  Any reference to Detail 30 shall now refer to Cecil County Standard Details S-9 (Modified) and S-10 (Modified).  Both drop manholes types are acceptable to the County.

2.  I saw in the specs that the Contractor is to provide a 12’ x 60’ fully furnished trailer for the Engineer but I did not see this mentioned in any of the bid item measurement and payment descriptions.  Is a trailer required for the engineer?
Yes, the trailer is required. Include the cost in Bid Item A-1 – Mobilization. An alternative to trailers could be renting/leasing office space, furnished as specified in Section 01590, along the Route 40 corridor somewhere within the project area or close to it.

Attachments:

- Cecil County Standard Detail S-9 (Modified) – Built-in-Place Drop Manhole Type A and B
- Cecil County Standard Detail S-10 (Modified) – 48” Precast Drop Manhole
NOTES:

1. PVC PIPE SHALL RECEIVE AASHTO M43, NO. 57 AGGREGATE FROM PIPE Ø TO TOP OF PIPE.

2. PIPE PENETRATIONS SHALL NOT BE LOCATED BETWEEN MANHOLE STEPS.

3. ALL PIPE WITHIN MANHOLE RUN SHALL BE DUCTILE IRON PIPE.

4. USE OF PRE-CAST DROP MANHOLES ALLOWED ON INCOMING SEWER SLOPES UP TO 3% MAX.

5. TYPE B DROPS WITH SLOPES OVER 20% WILL REQUIRE SPECIAL DESIGN WITH ADDITIONAL FITTINGS.
